Introduction to Roofing for High School Graduates

Course Information

CRA's **Introduction to Roofing** course will expose students to the basics of roofing and teach them what they are doing, why they are doing it and give them an understanding that roofing can lead to immediate, steady employment with great opportunities for advancement.

Introduction to Roofing for recent high school graduates and other qualified individuals is a 5-day intensive course, of which 70% is hands-on installation techniques and training.

- **Course includes:** safety, introduction to roofing, steep and low slope systems, metal roofing and coatings/waterproofing.
- **Class Size:** our smaller class size of up to 16 students allows for close hands on training.
- **Certificate of Completion:** Certificate is issued upon passing the course.
- **Class Schedule:** 8am-5pm, 1 week/Monday to Friday, one-hour lunch.
- **Instructor** - Steve Clisset has been teaching our roofing classes since 2012. From steep slope roofing to low slope applications, Steve has over 40 years of hands-on experience in all types of roofing and has successfully trained over 220 students.
- **Minimum Total Investment: \$250/Student.*** Recent high school graduate. (Regular Non-member price \$650.) *Tuition reimbursement available from several CRA member companies upon completion of course and successful employment.*
- **Class Dates:** check website for current class schedule at: <http://coloradoroofing.org/member/training-center/>

INTRODUCTION TO ROOFING

TRAINING PROGRAM

WHAT INTRO STUDENTS ARE SAYING...

"Overall, it has been a very good learning experience for me. I am still very new to this industry and this class has given me excellent insight to the many perspectives and opportunities that roofing has to offer."

"Taking this roofing course has increased my ability and confidence in helping meet the needs of my clientele even more than I had anticipated. I found it to be extremely beneficial to the future of my career in the roofing industry."

"The hands-on experience is by far the 'key' to this course and roofing in general."

"As a service tech, I have seen a lot of improper installations of roofing and I have grown to recognize necessary specs that are not code or required. Steve, the instructor of the course, has been aware and demonstrates the correct, more efficient way of installation."

* Tuition prices subject to change. CRA also has a limited number of free scholarships for students who qualify.
